EDUCATION

Master's Degree in Cybersecurity (2023 - 2025)

University of Salerno
Thesis: *Asymmetric Encryption in IoMT using ECG signals*
Final grade: 110/110 cum laude

Bachelor's Degree in Computer Science (2019 - 2023)

University of Salerno
Thesis: *MedChain: a blockchain based approach to clinical data management*
Final grade: 99/110

CERTIFICATIONS

NIST2 SPECIALIST & NIS2 DIRECTIVE - 2026

TECHNICAL SKILLS

Compliance: Knowledge of cybersecurity frameworks and regulations (e.g., NIS2 Directive, ISO/IEC 27001, NIST), applied in a GRC context within enterprise environments.

Data Governance & Data Protection: Experience in defining data classification and data protection processes, with a focus on enterprise Data Loss Prevention (DLP) practices.

Penetration Testing: Basic knowledge of Vulnerability Assessment and Penetration Testing (VA/PT) methodologies for identifying vulnerabilities in IT environments. Experience with tools such as Nessus, Metasploit, Wireshark and Burp Suite.

Programming languages: Python, Java, JavaScript, C, PHP — used in academic contexts.

Network Security: Knowledge of network security techniques and protocols, with a focus on university-level cybersecurity projects.

Blockchain & Data Security: Development of blockchain-based applications using Solidity in academic environments.

Data Management: Experience designing and managing databases (MongoDB, SQL), with a focus on data normalization and query optimization.

Artificial Intelligence: Basic knowledge of machine learning and related applications to computer vision problems.

SOFT SKILLS

Communication: Effective communication with technical and business stakeholders, including the preparation of executive presentations and project documentation in corporate environments.

Adaptability: Ability to work in dynamic and fast-paced environments, quickly adapting to changing priorities and project requirements.

Problem Solving: Ability to analyze complex problems and develop effective solutions in both academic and professional environments.

Leadership & Teamwork: Experience working in multidisciplinary teams and interacting with technical and business stakeholders in project delivery.

PROFESSIONAL EXPERIENCE

Security Consulting Analyst – Cybersecurity GRC
Accenture - Rome
January 2026 - Present

- Contributed to Cybersecurity Governance, Risk & Compliance (GRC) projects for enterprise clients.
- Conducted regulatory compliance assessments (e.g., NIS2 Directive, ISO/IEC 27000, NIST frameworks).
- Defined data classification and data loss prevention use cases.
- Supported project coordination activities and the preparation of materials for stakeholders.
- Drafted and formalized procedures and business processes in the cybersecurity domain.

Internship - Cybersecurity GRC
Accenture - Rome
July 2025 - January 2026

- Supported the definition and formalization of data classification and data protection processes within enterprise environments.
- Contributed to the drafting of project documentation (policies, procedures, and user guides) in the areas of cybersecurity and governance.
- Supported the analysis and mapping of regulatory requirements (e.g., NIS2 Directive, ISO/IEC 27001).

ADDITIONAL EXPERIENCE

Waiter | Happy Village Resort, Marina di Camerota, Italy
May 2022 - September 2022

- Served a wide range of customers, strengthening communication skills.
- Coordinated with the team to optimize operations during peak periods.

Waiter | Hotel Seven Residence, Palinuro, Italy
July 2019 - September 2019

- Managed customer service operations.
- Collaborated with the team to ensure maximum operational efficiency.

HOBBIES

- Music: Digital music production (FL Studio) and classical guitar, with a focus on creativity and attention to detail.
- Sports: Regular practice of boxing and kickboxing, combined with discipline and team-oriented activities.
- Reading: Non-fiction and narrative books, with a particular interest in social dynamics and human behaviour.

LANGUAGES

- Italian: native
- English: Reading - C1 | Writing - B2 | Speaking - B2
